

# RAE 2024 Coastal & Estuarine Summit Presenter Toolkit

Congratulations on being selected as a presenter at the RAE 2024 Coastal & Estuarine Summit this October 6 – 10 in Washington DC! We invite you to kick off the conversation on your social media channels by sharing the and tagging Restore America’s Estuaries while using the hashtag #RAESummit. Sample social media posts are provided below.

This year’s theme, “Capitalizing on Our Coasts”, demonstrates the value of America’s bays, estuaries, marshes, and coastal waterways to offer nature-based solutions to combat global threats posed by climate change. However, estuaries are not immune to outside forces and require investment, expertise, and advocates to preserve their natural benefits. This Summit provides a platform to illustrate why our nation should seize the opportunity to "Capitalize on Our Coasts".
